

HAIWEN LI

+1-805-637-5198 | haiwenli@mit.edu

Cambridge, MA 02139

RESEARCH INTERESTS

Human-AI/LLM Interaction, Computational Social Science, Social Computing

EDUCATION

- **Massachusetts Institute of Technology** September 2022 - June 2027 (expected)
Ph.D. in Social and Engineering Systems Cambridge, MA
 - Committee: Michiel A. Bakker (advisor, MIT), Sinan Aral (MIT), Martin Saveski (UW)
 - GPA: 5.0/5.0
 - Relevant coursework: Econometrics and Causal Inference, Experimental Design, Probability Theory, Statistical Inference, Information Theory
- **University of California, Los Angeles** June 2022
B.S. in Statistics (UCLA Honors Program) Los Angeles, CA
 - GPA: 3.96/4.0 (Summa Cum Laude)
 - Relevant coursework: Machine Learning, Reinforcement Learning, Statistical Modeling and Inference

RESEARCH EXPERIENCE

- **Google DeepMind** July 2026 - Present
Student Researcher Cambridge, MA
- **Massachusetts Institute of Technology** Fall 2023 - Present
Research Assistant Cambridge, MA
 - Researching AI/LLMs in digital information environments, combining reward model training, LLM fine-tuning, field experiments, and user studies.
- **Visual Intelligence Lab (UCLA)** September 2021 - March 2022
Research Assistant Los Angeles, CA
 - Implemented reinforcement learning algorithms and neural networks to construct a solver that significantly reduces the computational cost of large-scale partially observable MDP
- **Center for Vision, Cognition, Learning, and Autonomy (UCLA)** June 2021 - August 2021
Research Assistant for Reasoning in Vision, Language, and Knowledge Los Angeles, CA
 - Created interactive visualizations for a Question-Answering dataset
- **MIT Sloan School of Management** March 2020 - October 2020
Research Assistant Remote
 - Developed text-based product classifiers using latent semantic analysis and XGBoost algorithm
 - Studied how tiktok video features drive video engagement and product sales

WORK IN PROGRESS

- Improving LLM-generated fact-checks through pluralistic community feedback and evaluating their effectiveness in a field experiment.
- Estimating the causal effects of introducing AI fact-checkers on human fact-checking contributors through field experiments.
- Improving the bridging-based algorithm in X Community Notes to surface helpful notes faster.

TEACHING EXPERIENCE

• MIT Sloan School of Management

Teaching Assistant for Digital Marketing and Social Media Analytics (Student Feedback: 6.3/7.0)

Fall 2024

Cambridge, MA

- Conducted recitation sessions on empirical causal inference analysis

INVITED PRESENTATIONS

• Information Quality Talk @Google DeepMind

November, 2026

• 2026 INFORMS Annual Meeting

November, 2026

• 2026 IDE Annual Conference

April, 2026

• The 4th Annual Trust and Safety Research Conference

October, 2025

HONORS AND AWARDS

• Michael Hammer Fellowship

2022

Institute for Data, Systems, and Society, MIT

• Dean's Honors List

2020, 2021

University of California, Los Angeles

SERVICE

• Reviewer

CSCW 2025, HAI 2025, ICML 2026 Workshops
